

# **Nova Advisory Onestream Consultant**

## **About the Company:**

As a trusted partner and OneStream expert, Nova Advisory specializes in designing and delivering unified Corporate Performance Management (CPM) solutions. Our industry-renowned consultants enable clients to modernize their finance organization and streamline reporting and planning processes.

At Nova Advisory, we guide your strategy by:

Working closely with clients to identify, analyze, and document their business requirements. Through a thorough examination of existing processes and information, we simplify, automate, modernize, and streamline operations.

Helping define and manage realistic project plans. Clients can trust us to meet all objectives within the specified timeframe and budget. Simply put, our clients' success is our top priority.

## **Job Description:**

We are seeking Consultants with a strong financial background to implement OneStream for our clients. We welcome candidates with prior experience in OneStream or similar technology, eager to make a move to OneStream!

## **Responsibilities:**

- Design and develop new models, participating in the full end-to-end project lifecycle.
- Oversee OneStream projects under your control from start to finish.
- Collaborate with internal and external stakeholders to gather key requirements.
- Design an application that meets business requirements, including creating user stories, modules, process diagrams, and prototypes.
- Gather business requirements and design, build, configure, test, and support the OneStream application.
- Play a pivotal role in all activities ranging from requirement gathering to Hypercare.

**Requirements:**

- 4+ years of relevant consulting or industry experience.
- 2+ years of implementation experience with OneStream XF within professional services or industry.
- Strong VB.NET or C# scripting experience.
- Well-versed in Consolidation concepts.
- Good functional understanding of financial systems and processes.
- Experience with OneStream Marketplace tools.
- Experience in building metadata, business rules, forms, designing cube views, workflow, data reconciliation, and any custom rules.
- Ability to work independently and manage multiple task assignments.

**Preferred:**

- Experience in end-to-end implementations in OneStream.
- Strong knowledge of Agile methodology.
- Ability to build application models for specific planning processes (e.g., Sales forecasting, financial planning and forecasting, workforce planning, etc.).
- Experience in creating Business Rules, including Custom Consolidations, Intercompany eliminations, automating Cash Flow, Custom Translations, and Currency Overrides.
- Experience in preparing deliverables such as design documents, test documentation, training materials, and administration/procedural guides.

**EEO Statement:**

Nova Advisory is an Equal Opportunity Employer, and we are committed to complying with all laws and regulations that promote and enhance Diversity and Inclusion. We consider all qualified candidates without regard to age, race, color, nationality, religion, sexual/gender orientation, gender identity, disability, or any other legally protected status.

Our commitment is to build diverse and inclusive teams, fostering an equitable workplace for all our employees across the globe.
